This Agreement is made and entered into this 2nd day of May, 2008 between and among the LOTT Alliance (LOTT), Port of Olympia (Port), and the City of Olympia (Olympia), collectively “Parties” or “the Parties.”

Whereas, the Parties have had continuing discussions for several months concerning the Port’s East Bay property, which consists of approximately 14 acres of land bordered by Marine Drive, Jefferson Street State Avenue, and East Bay Avenue in Olympia, and;

Whereas, the Parties desire that lot number 4 (four) as indicated in the short plat map prepared by Skillings Connolly, attached hereto and labeled as Attachment A, currently owned by the Port, be designed and constructed as a public plaza in order to benefit the community, and;

Whereas, the firm of Miller Hull has prepared preliminary plans and designs for the plaza with the Parties’ input in order to maximize public benefit while meeting each Partner’s specific needs, and;

Whereas, each Party’s objective is to participate in the design and construction of the plaza as described herein, and

Whereas, RCW 39.34.010 permits local governmental units to make the most efficient use of their powers by enabling them to cooperate with each other on the basis of mutual advantage, and

Whereas, the Parties intend to memorialize their agreement concerning the plaza, subject to each Party’s governing body approval,

THEREFORE, BE IT RESOLVED THAT:

I. PROVISIONS THAT ARE SPECIFIC TO THE EAST BAY PLAZA:

1. The Port will transfer title to Lot 4 of East Bay Short Plat by warranty deed naming LOTT as fee simple owner, pursuant to a purchase agreement negotiated by the staff of the Port and LOTT, respectively, consistent with the provisions of Section I of this Interlocal Agreement.

2. The following provisions shall apply to the purchase of the plaza property, and to the development, operation, and maintenance of the plaza by the Parties after LOTT’s purchase of the plaza property:

   a. The overall design of the plaza shall be consistent with LOTT’s corporate mission, and include a reclaimed water feature. Design of the plaza will be
consistent with the overall schematic design prepared by the firm of Miller-Hull which is attached hereto as Attachment B. The development of the plaza will be completed in phases. The first phase will be constructed by LOTT and Olympia, and include a reclaimed water feature, walking paths, and a landscaped area as more fully described in Attachment B. The construction of the first phase will be completed no later than the completion of the initial phase of the Hands On Children’s Museum to be constructed on the adjoining Lot 5. Each successive phase will be consistent with the overall schematic design, and will be constructed, and costs allocated, by agreement of all of the Parties who participate in the construction of each phase. Except to the extent otherwise expressly provided herein or agreed to by the Port in writing, the Port shall not be required to contribute to the cost of the design or construction of the plaza.

b. The Port, Olympia, HOCM, and LOTT shall jointly participate in the design of the plaza, including any phasing subsequent to the first phase, and each entity may include in the design features specific to such entity so long as such entity agrees to pay for such design features. The Port may request to have specific features included in the design to reflect the Port’s contribution to the plaza and the community, subject to Port commission approval.

c. The purchase price of the plaza property shall be the sum of one dollar ($1.00), plus other consideration as described in the purchase agreement.

d. LOTT and Olympia will be responsible for the environmental cleanup of the plaza property, and the actual cost of such cleanup will be equally shared between LOTT and Olympia, and LOTT and Olympia will defend and indemnify the Port for any and all liability, claims, actions, assessments, fees, or litigation arising out of, or related to, the environmental condition of the plaza property; provided, however, that LOTT’s purchase of the plaza property is subject to LOTT obtaining Washington State Department of Ecology’s approval of an interim action workplan required for LOTT to develop the plaza property as proposed by LOTT with the estimated cost of the remedial action required by such workplan being no greater than $366,850.

e. The Parties acknowledge and agree that the Port may conduct environmental remediation of land adjoining the plaza property in conjunction with the Port’s East Bay Short Plat improvements and other work prior to the remediation of the plaza property by LOTT and Olympia, and that if the Port encounters material that must be removed as part of remediation required by the Washington State Department of Ecology and the area affected by such material crosses the boundary line of the plaza property, then the Port will also perform the removal of such material to the extent that it extends onto the plaza property, and the reasonable cost of that portion of the work related to the plaza property shall be paid for by LOTT and Olympia within thirty (30) days from the date of the Port’s invoice for such costs; provided that the total of such costs shall not exceed
$366,850. Except as otherwise agreed to by the Parties in writing, any and all
grant funds or other amounts received by any Party from the Department of
Ecology or any other source for environmental remediation work performed on
the Property or any surrounding property ("grant funds") shall be retained by the
Party awarded the grant funds, and no portion thereof shall be paid or credited to
any other Party; provided, however, that the amount by which LOTT and
Olympia are required to reimburse the Port for any environmental remediation
work performed by the Port on the plaza property pursuant to this Section 2.e.
shall be reduced to the extent that the Port received grant funds for such work.

f. The Port will be responsible for the cost of environmental cleanup of the
remainder of the East Bay MCTA site, as the site is defined now or in the future,
and will defend and indemnify LOTT and Olympia for any and all liability,
claims, actions, assessments, fees, or litigation arising out of, or related to,
environmental cleanup in the remainder of the East Bay MCTA site; provided,
however, that the Port will not be obligated as described in this paragraph to the
extent a purchase agreement with one of the Parties modifies such obligation, or
to the extent any contamination was caused by a Party to this Agreement, or to the
extent an individual Party is independently responsible for cleanup of
contamination in the East Bay MCTA site.

g. LOTT will maintain and insure the plaza property for as long as it is the fee
simple owner of the property and the plaza purpose remains consistent with
LOTT’s corporate mission. Olympia will reimburse LOTT for their proportionate
share of the cost of maintenance and insurance in a separate maintenance
agreement to be agreed upon by each Party’s staff within 60 days of the effective
date of the purchase agreement between LOTT and the Port.

h. By subsequent agreement, LOTT may sell the plaza property to Olympia for the
sum of one dollar, provided LOTT reserves an easement or other acceptable form
of ownership of any portion of the property specifically related to its corporate
mission, such as a reclaimed water feature, and provided that LOTT’s duty to
maintain and insure the premises is thereafter limited to those features it continues
to own, and provided that Olympia agrees to thereafter maintain and insure the
plaza property and otherwise perform all agreements of LOTT or Olympia with
respect to the plaza property in this or any other agreement. Except as stated
above, the plaza property, and the operation of the plaza property, shall not be
sold, assigned, leased to, or contracted to, any other person in whole or in part
without the prior written consent of the Port, in its sole and absolute discretion.
The maintenance of the Plaza may be contracted to a third party, provided that
LOTT or Olympia will continue to remain primarily responsible for such
maintenance, and that LOTT or Olympia give prior notice to the Port of such
contract and consider the input of the Port, if any, with respect thereto.
i. If LOTT or Olympia decides not to use, or fails or ceases to use, the property as a public plaza, or attempts or actually does sell, assign, or lease the property or any part thereof, or contracts the operation or maintenance of the property or any part thereof to any person other than LOTT or Olympia without the prior written consent of the Port, the Port will have the right, but not the obligation, to declare a reversion and to retake ownership and possession of the property pursuant to the terms stated in the purchase agreement, which will include payment of one dollar ($1.00) and reimbursement by the Port to LOTT and Olympia of their reasonable environmental remediation costs of the property up to a total aggregate amount of $366,850, and the right to have improvements removed at the expense of the Party that constructed the improvement.

j. Any remaining funds deposited into escrow by LOTT or Olympia for the design or construction of the plaza property pursuant to any existing purchase agreement(s) with the Port shall be released to the party(ies) that made such deposit(s) for their use in the design, environmental remediation, and construction of the plaza property pursuant to this Interlocal Agreement.

k. LOTT shall pay the Port seven percent (7%) of the total cost of the design and construction of the infrastructure necessary to accomplish the East Bay Short Plat as approved by the City (the total cost of which is presently estimated to be $5 million – $7 million). Payment shall be made on the later of (i) Closing of the purchase of the plaza property, or (ii) thirty (30) days after completion of the East Bay Short Plat improvements and the Port’s written request for reimbursement together with a copy of documents evidencing the costs incurred by the Port for such improvements and the calculation of LOTT’s share of such costs.

3. The Port and LOTT intend that the purchase agreement referred to herein will be submitted to their governing bodies for consideration with this Agreement. The Parties agree to enter into any interlocal and other agreements necessary to effectuate the Parties’ intent as described herein.

4. If either (a) the sale of Lot 4 to LOTT does not close, or (b) the sale of Lot 5 to Olympia and the construction of a Hands On Children’s Museum on such property does not take place, then this Agreement may be terminated by LOTT, Olympia, or the Port. If the Port does not choose to terminate this Agreement and either LOTT or Olympia also does not choose to terminate this Agreement, then this Agreement will remain in effect between the remaining Party and the Port.

5. This Agreement contemplates, and is conditioned upon, additional, more specific agreements as referred to herein.

6. In the event that the Parties hereto differ with respect to the interpretation or execution of this Agreement, the chief executive of each Party shall meet and confer within a
reasonable period of time and in no case more than 10 days after the matter becomes apparent.

7. Upon approval of each respective Party’s governing body, this Agreement may be executed by the governing body’s chief executive.

II. INTERLOCAL ELEMENTS:

1. Duration. This Agreement shall remain in force until neither LOTT nor the City of Olympia shall have any ownership interest in the property or as described in paragraph I(4) and (5) herein.

2. The purpose of this Agreement is to define the responsibilities of the Parties with respect to the East Bay Plaza design, environmental clean-up, construction, development, and ownership, as more fully described herein.

3. No separate legal or administrative entity is created by this agreement. LOTT, the City of Olympia, and the Port will each designate one individual who together will be responsible for the joint administration of this Agreement and all actions to be taken by the Parties pursuant thereto. The initial designee for LOTT is Rick Hughes. The initial designee for the City of Olympia is Tom Morrill. The initial designee for the Port is Kari Qvigstad. Each party may change their designated administrator at any time and from time to time upon notice to the other party.

4. No joint organization is created.

5. No joint budget is created.

6. Nothing in this Agreement relieves any party of any obligation or responsibility imposed upon it by law.

7. If one or more clauses of this Agreement is found to be unenforceable, illegal, or contrary to public policy, the Agreement will remain in full force and effect except for the clauses that are found to be unenforceable, illegal, or contrary to public policy. If this occurs, the Parties agree to negotiate new provisions to replace the provisions found to be illegal, invalid, or unenforceable.

8. This Agreement, together with the purchase agreement and other agreements and documents referred to herein, constitutes the complete and final agreement of the Parties with respect to its subject matter, replaces and supersedes all oral and/or written proposals and agreements heretofore made by the Parties with respect to its subject matter, and may be modified only by a writing signed by the Parties hereto.

9. This Agreement may be executed in two or more counterparts, and each counterpart so executed shall constitute part of one Agreement binding on all parties that have executed the Agreement.
10. This agreement shall be recorded with the Thurston County Auditor's Office prior to being effective.
